

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

# **THE NEW ERA PRINTING COMPANY**

**LANCASTER, PA.**

Is prepared to execute in first-class and satisfactory manner all kinds of printing and electrotyping. Particular attention given to the work of Schools, Colleges Universities, and Public Institutions.

**Books, Periodicals**

**Technical and Scientific Publications**

**Monographs, Theses, Catalogues**

**Announcements, Reports, etc.**

**All Kinds of Commercial Work**

*(Printers of the Bulletin and Transactions of the  
American Mathematical Society, etc., etc.)*

Publishers will find our product ranking with the best in workmanship and material, at satisfactory prices. Our imprint may be found on a number of high-class Technical and Scientific Books and Periodicals. Correspondence solicited. Estimates furnished.

**THE NEW ERA PRINTING COMPANY**

*A New Wiley Mathematical Monograph Series Book*

# **The Dynamics of the Airplane**

**By KENNETH P. WILLIAMS**

*Associate Professor of Mathematics, Indiana University. (No. 21 of the Mathematical Monographs)*

For students of mathematics and physics who are attracted by the dynamical aspect of aviation.

It has 138 pages, 6 by 9 inches—50 figures—and is cloth-bound—\$2.50 postpaid.

---

*Also, a New Edition*

# **The Theory of Relativity**

**Second Edition, Revised and Enlarged**

**By ROBERT D. CARMICHAEL**

*Professor of Mathematics, University of Illinois*

Chapter VII has been added to give a compact account of the generalized theory of relativity.

112 pages, 6 by 9—Cloth-bound—\$1.50 postpaid. (This is No. 12.)

---
